

# CHRIS MOWRY

CHIEF EXECUTIVE OFFICER

Chris Mowry joined Type One Energy as CEO with over 30 years of global business leadership experience in the energy and infrastructure sectors, including clean energy technologies, power generation, oil and gas, automation, and process industries. He previously served as CEO of General Fusion, a Canadian-based company deploying a large-scale fusion demonstration facility in the UK. He was also the Founder and CEO of Generation mPower, a company formed to develop and commercialize nuclear fission technology.

Mowry has led numerous exceptional businesses including B&W Nuclear Energy, a division of The Babcock & Wilcox Company and WSI, a private equity-backed services and manufacturing company serving the global energy and petrochemical industries. After starting his career with the Philadelphia Electric Company and the Institute of Nuclear Power Operations, Mowry spent 10 years with GE Energy in various management roles, including President of GE Reuter-Stokes and General Manager of GE Hydro. He currently serves as Chairman of the global Fusion Industry Association (FIA). He earned degrees in Engineering and Astronomy from Swarthmore College and a M.S. in Mechanical Engineering from Drexel University.
