Monday, August 1st at 7:45am - 12:15pm

Nuclear Opportunities Workshop

Nuclear & History Tour of Oak Ridge

The tour will focus on the history of Oak Ridge, the Manhattan Project and the sustained diligence of the people who brought a global conflict to an end.

Tour Fee
\$50

per person*

Registration Includes:

- ✔ Transportation to and from Hilton Knoxville Airport for conference guests staying at the hotel. Local residents may board the bus at AMSE
- ✔ Bus Tour with Tour Guide
- ✔ Tour Stops include the K-25 History Center and Heritage Center, Y-12's New Hope Center, and the American Museum of Science and Energy all located in the Oak Ridge Corridor
- ✔ Boxed Lunch and Beverage

[Click to Register](#)

The American Museum of Science and Energy (AMSE) in conjunction with ETEC is proud to offer this one-of-a-kind tour from the Department of Energy's (DOE) Public Bus Tour.

This tour will feature visits to AMSE, the K-25 History Center and the Y-12 New Hope Center paired with a virtual showcase of the Oak Ridge National Laboratory's larger than life Visitor Center mural. With transportation to and from this year's NOW location at the Hilton Knoxville Airport Hotel, guests will tour these incredibly historic locations with trained guides every step of the way. The significance of these locations is found by understanding the birthplace and industrialization of the "Atomic Age."

*This tour is part of the Nuclear Opportunities Workshop and can be purchased in addition to regular registration.
