

Terry L. Grimm, PhD  
Chief Executive Officer & Senior Scientist  
Niowave, Inc.  
Lansing MI  
Email: [grimm@niowaveinc.com](mailto:grimm@niowaveinc.com)

Dr. Terry Grimm is the Founder, Chief Executive Officer, and Senior Scientist of Niowave. He has over 30 years of experience in superconducting accelerator research with both the DOE and DOD. He received his PhD from the Massachusetts Institute of Technology in Nuclear Engineering, after receiving his bachelor's degree with highest honors from Purdue University. Prior to founding Niowave, he was a key researcher at the National Superconducting Cyclotron Laboratory (NSCL) at Michigan State University. Before NSCL, Dr. Grimm worked at the DOE's Superconducting Super Collider (SSC) located outside Dallas, Texas.
